

RETURN CONVEYOR ROLL PINCH POINT GUARD (PPG-1)

Heavy duty pinch point guard for belt conveyor as required authorities using urethane edge to avoid belt damage. Available for all belt widths. A basket can be provided as an option.

- 1 Featuring abrasion resistant urethane edges molded on a sturdy steel member. Won't damage belt even if the guard is bended accidentally upward. Allow a very close adjustment with the belt, as required by authorities.
- 2 Highly visible side pannels have openings to see turning return rolls while protecting the worker from injuries
- 3 Supports are fully adjustables in both directions for a perfect fit between the belt and the guard
- 4 Optionnal lifting tool combined with the use of a temporary steel bar, make easier the return rolls replacement.
